TECHNICAL DATA SHEET

Regulatory Approval/Code Reference:

OSHA 29 CFR 1910.106(e)(2)(ii):	Incidental storage or use of flammable and combustible liquids.
OSHA 29 CFR 1910.106(a)(9):	Closed containers shall mean a container as herein defined, so sealed by means of a lid or other device that neither liquid nor vapor will escape from it at ordinary temperatures.
OSHA 29 CFR 1910.106(e)(2)(iv)(a):	Flammable liquids shall be kept in covered containers when not actually used.
FM Class No.	**6053, 6054, 6055**
FM Global	**FM APPROVED**

PLUNGER CANS (METAL AND NON-METALLIC)

Blacktop Plunger Cans help you quickly and easily moisten cleaning cloths or swabs. New “smart pump” mechanism helps streamline your swabbing operations. Made of chemically resistant Ryton® and brass, the pump base is designed to leave less liquid in the bottom before having to refill. FM approved.

Nonmetallic Dispensing Cans permit easy, one-hand dispensing of liquids directly onto work surface. Brass dispenser valves are leak proof and self-closing to minimize spills and control excess. Brass valves are FM approved and recommended for flammables. Rugged high-density polyethylene body is textured and shaped for a firm grip.

Material Specifications:

24ga steel throughout, with fully welded construction.
Powder coat finish: 2.4 to 2.5 mills avg.
Ryton/Brass plunger assembly
Polyethylene

Red	Yellow	Description	Dimensions (mm)	Dasher Dia. (mm)	Plunger Assembly	Weight	Apprl
