

## Top-of-the-range neoprene delivering excellent wide-ranging chemical protection

- In environments where mechanical risks are combined with chemical exposure, the comprehensive all-round range of robust Neoprene 09-series gloves provide an optimal defence against oils, acids, caustics, alcohols and many solvents incorporating a good resistance to all mechanical hazards.

### Industries

- Metal fabrication
- Chemical

### Applications

- Foundry operations
- Handling materials with sharp or rough edges
- Extruding, bending and punching shapes
- Processing sheets, coils, tubes
- Fabricating metal parts, glass sheets
- Unexpected leakages spills or other releases

# AlphaTec®

ADVANCED CHEMICAL PROTECTION

## 09-928

Resists a broad range of oils, acids, caustics and solvents incorporating protection up to the elbow

Previously known as: Scorpio™ 09-928

### Key Features

- Smooth finish neoprene coated glove with cotton jersey liner
- Comfortable anatomical glove shape which follows the contours of the hand at rest. Improves dexterity and reduces hand fatigue
- Smooth finish offering excellent broad-spectrum chemical resistance, while also featuring the cotton lining that enhances puncture and snag resistance
- Length of 450 mm for a protection up-to the elbow

### Vulcanization Chemical Accelerators

- Diphenyl guanidine
- Diphenyl thiuram urea

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.

### Performance Standards
