

Previously known as: ChemTek™ 38-520

Excellent glove providing the best resistance to the most aggressive chemicals, without compromising on dexterity or comfort.

- The glove provides the best resistance to the most aggressive chemicals, without compromising dexterity or comfort.
- Flexible and excellent dexterity, designed for comfort with a natural, curved ergonomic shape and soft feel.

Industries

- Life Sciences
- Oil and gas
- Chemical

Applications

- Chemical Handling
- Opening and draining pumps valves or lines
- Filling, blending and charging of raw materials
- Equipment repair & maintenance

Previously known as: ChemTek™ 38-520

Performance Profile

Key Features

- 38-520 offers superior protection against aldehydes, ketones and esters as well as concentrated mineral acids
- The glove is very flexible and provides excellent dexterity
- Designed for comfort, with a natural, curved ergonomic shape and soft feel, offering easy donning and good grip
- The absence of latex proteins means there's no risk of latex allergies
- Rough finish on the hand section of the glove for safer handling

Vulcanization Chemical Accelerators

- 2-Mercaptobenzothiazole disulfide
- Dipentamethylene thriuram disulfide
- Tetramethylthiuram disulfide

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.
