## PER73LAT

## Area of use\*

## **Technical features**

Support: polyester, seamless knitted. Gauge: 13. Wrist: elastic knit with piping. Coating: crinkle latex, coated on palm. Colour: black and red. Sizes: 6 to 11. Packaging: carton of 100 pairs. Subpackaging: bag of 10 pairs.

## **Advantages**

- > Non-irritating and easy to adjust with the seamless knitted support.
- > Reinforced strength with the polyester support.
- > Good support of the glove with the elastic knitted wrist.
- > Improved grip with the crinkled finish.
- > Back of the hand ventilated thanks to the only palm coating.

## Certification

This product complies with European Regulation (EU) 2016/425 on Personal Protective Equipment (PPE). Category II. Issued by the CTC, notified body n°0075.

EN 388 : 2016 + A1 : 2018

## EN ISO 21420 - PROTECTIVE GLOVES

General requirements and test methods. This standard specifies the essential requirements for ergonomics, safety, marking, information and instructions for use.

| EN 388 - AGAINST MECHANICAL RISKS |   |   |  |  |
|-----------------------------------|---|---|--|--|
| 1.2.3.4.F.P                       | 1 | Abrasion resistance. Level 1 to 4 (4 being the best).                         |  |  |
|                                   | 2 | Blade cut resistance. Level 1 to 5 (5 being the best).                        |  |  |
|                                   | 3 | Tear resistance. Level 1 to 4 (4 being the best).                             |  |  |
|                                   | 4 | Puncture resistance. Level 1 to 4 (4 being the best).                         |  |  |
|                                   | F | Cut resistance (ISO13997). Level A to F (F being the best).                   |  |  |
|                                   | Р | Resistance against impact (according to EN 13594). Marking P (optional test). |  |  |

For gloves that contain materials which can gets dulls to the blade, and additional compulsory test must be performed according to EN ISO 13997 test method (TDM 100 tester). This test may also be optional for gloves that do not dull the blade.

#### EN 374 - AGAINST CHEMICAL
